## **In-Line Strainer Baskets**

HT-2808

In-Line Strainer Baskets (ISB) are relatively small for installation under a pot or dishwasher pre-rinse sinks. ISB are available in many standard sizes to be used in conjunction with our automatic and manual grease interceptors as a reliable pre-treatment device.

In-Line Strainer Baskets are required by many sewer authorities and are mandated by the Washington Suburban Sanitary Commission (WSSC) where grease interceptors are installed.

**Economical & Effective FOG Pretreatment**
