

Highland Cylindrical Heating Fuel Tanks

Vertical Model

Horizontal Model

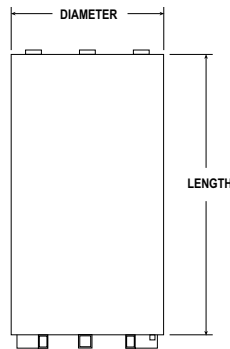

Nominal Capacity Gallons	Dimensions		Overall Height (OAH)	Nominal Capacity Gallons	Dimensions	
	Diameter	Height			Diameter	Length
192	2'4"	6'0"	6'4"	320	2'4"	10'0"
160	2'4"	5'0"	5'4"	240	2'4"	7'6"
128	2'4"	4'0"	4'4"	160	2'4"	5'0"

Both the vertical and mobile home tanks are Underwriters Laboratories (U) listed and designed to be installed in accordance with the Standards for Installation of Oil Burning Equipment, NFPA-31, 1992. They can be safely used with today's high-volume quick delivery systems and can be installed in series.

Vertical Heating Fuel Tanks

The Highland Vertical Fuel Oil Tank is designed to be used in a finished part of the house. The standard configuration includes three 2" fittings on top with a 1/2" burner connection at the bottom.

Tanks are constructed from 14 ga. hot-rolled, commercial grade steel (ASTM 569-72) and the standard exterior finish is red primer.

Horizontal Heating Fuel Tanks

The Highland Horizontal Fuel Oil Tank is designed to be used outdoors along side or under mobile homes or in crawl spaces. The standard configuration includes three 2" fittings and one 3" emergency fitting on top with a 1/2" burner connection at the bottom.

Tanks are constructed from 12 ga. hot-rolled, commercial grade steel (ASTM 569-72) and include four (4) welded supports that provide 3" of clearance. The standard exterior finish is red primer.
