Technical drawing of a spherical tank. The drawing shows a circular cross-section of the sphere. A vertical dashed line represents the centerline. A horizontal dashed line represents the equator. A dimension line with arrows at both ends indicates the diameter of the sphere, labeled $\phi 8' - 0''$. The sphere is supported by a rectangular base. The base is supported by two sets of wheels. A dimension line with arrows at both ends indicates the width of the base, labeled $78'' \text{ APPROX.}$. A small square with a dot inside is located on the right side of the base, with a leader line pointing to it.
