

highDRO water tanks

rainwater collection tanks
HT-1130
PRODUCT DETAILS

HighDRO[®] Rainwater Collection Tanks (HD-RCT) are available for either aboveground or underground installations.

Whether of stainless steel or coated carbon steel construction, HD-RCT provide a renewable supply of water that can be used for a wide range of purposes.

Rainwater "Harvesting"

In some areas, rainwater may represent the primary source of water. Collected rainwater can augment primary water sources, and it is a good standby in times of emergency, such as power outages, droughts or when the well goes dry.

Highland Tank will provide turnkey rainwater harvesting systems. These complete systems are a key element to earning valuable LEED credits in a "green" building.

Applications

- » Lawn and landscape irrigation
- » Fire water supply
- » Laundry washing
- » Toilet flushing
- » Building power washing
- » Industrial processing
- » Pool filling
- » Vehicle washing
