

storage tanks

rectangular lube tanks

HT-1056

PRODUCT DETAILS

Highland Tank's rectangular lube tanks are designed to provide safe, dependable yet economical bulk oil and fast lube oil storage.

They are available in single-wall or double-wall construction when secondary containment is required. Highland Tank manufactures lube tanks in a wide range of sizes and capacities to meet replacement or new construction dimensional specifications.

Applications

- » Fast lube service centers
- » Car dealerships
- » Vehicle maintenance and repair facilities
- » Waste oil storage facilities
- » Industrial facilities

Construction and Compliance

Lube tanks are constructed, tested and labeled in strict accordance with UL-142 specifications in single-wall or double-wall configurations. The tanks meet or exceed the NFPA's regulations for aboveground storage tanks for lubrication products and are compatible with new or used petroleum-based or synthetic motor oils. Standard tanks are fabricated using hot-rolled carbon steel. Stainless steel construction is also available.

Ideal for Storing a Wide Range of Flammable & Combustible Liquids

Standard Tank Features

- » UL-142 label
- » Capacity: 120-20,000 gallons
- » 12 gauge carbon steel
- » Exterior full fillet lap joints for added "ribbed" strength
- » Seam inspection and 5 psi factory air test
- » Connections for normal and emergency venting, gauging, filling and product piping
- » Lifting lugs
- » Structural supports underneath for easy installation
- » Primer paint

Model	Volume Gallons	Nominal Inside Dimensions		
		Length	Width	Height

*Add 2" (height of tank supports) to depth to determine overall height.
Add 1" to length, width and height to determine outside dimensions of double-wall tanks.

Highland Tank builds several other styles of lube tanks. To see our full line of lube tanks, visit our web site www.highlandtank.com. These sturdy tanks are designed for use where space is at a premium. They help optimize space usage at fast lube service centers or vehicle maintenance facilities.

We have a wide variety of options and accessories to customize your lube tanks. The tanks can be equipped with bulkheads to create smaller compartments within a larger tank. Pump mounts, spill boxes and an assortment of equipment packages are also available to the tank to customize your installation.

Note:
The National Fire Protection Association (NFPA) Code 30A specifies UL-142 listed tanks by reference to Code 30, Section 2-2.3.1(a) as appropriate for the storage of lubrication oils.
