aboveground shelter tank

HT-1001

PRODUCT DETAILS

The Highland Shelter Tank is the most versatile solution for aboveground storage with complete containment.

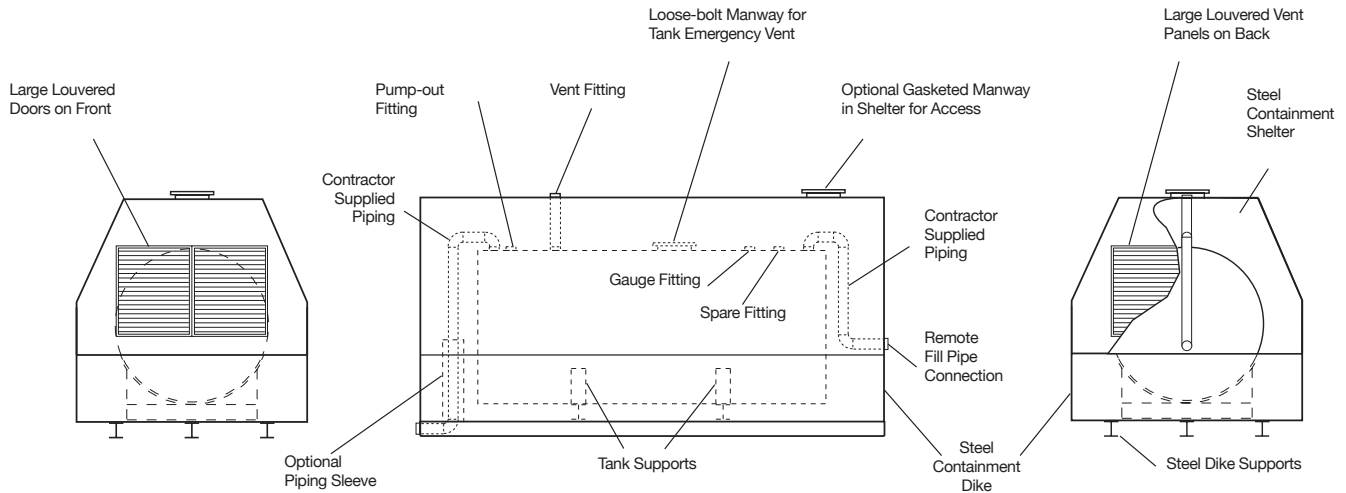

This modular aboveground liquid storage system consists of a carbon steel or stainless steel storage tank housed within a 110% or 150% steel containment dike with shelter cover.

Shelter Tanks are ideal for the secure storage of petroleum, chemicals, hazardous wastes and fertilizers.

They are available in compartmented configurations for multiple product storage. Highland Shelter Tanks are easy to install.

Relocation, if necessary, is fast and easy. The entire tank system is product compatible and possesses the strength and impermeability of steel.

The Shelter Tank carries a UL-142 label and meets the NFPA 30 code. Highland Tank fabricates Shelter Tanks in a variety of standard sizes and can custom build to suit your specific needs.
