In-Line Strainer Baskets

HT-2808

In-Line Strainer Baskets (ISB) are relatively small for installation under a pot or dishwasher pre-rinse sinks. ISB are available in many standard sizes to be used in conjunction with our automatic and manual grease interceptors as a reliable pre-treatment device.

In-Line Strainer Baskets are required by many sewer authorities and are mandated by the Washington Suburban Sanitary Commission (WSSC) where grease interceptors are installed.

Economical & Effective FOG Pretreatment

Drawing & Details

Advantages

- Removes nearly 100% of the solid food waste from FSE drains
- Constructed of durable stainless steel and other corrosion resistant materials
- Easily accessible for maintenance and cleaning
- Saves money on water & electricity
- Eliminates costs of cleaning pipes and/or holding tank
- Helps keep the grease interceptor clean and minimizes pump-out frequency
- Available in many standard sizes - custom manufacturing to meet your needs is also available

Model Capacity	Length	Nominal Dimensions Width	Height	Inlet/Outlet Diameter	Inlet/Outlet Height
ISB - 15	9"	12"	15.5"	2"	9"
ISB - 20	9"	16"	18"	2"	9"
ISB - 25	9"	16"	18"	3"	9"
ISB - 25 L	9"	22"	18"	2"	6"
ISB - 30	11"	17"	19"	3"	10"
