» Prevent grease buildups from blocking sewer lines.
» Stop sewer overflows into streets and storm drains.
» Save money spent on costly cleanups of sewage spills.
» Reduce the number of times you have to clean your grease trap.
» Protect the quality of our water.

Best Management Practices (BMPs) in the Kitchen
DO ...

Put oil and grease in covered collection containers.

Scrape food scraps from dishes into trash cans and garbage bags and dispose of properly. Disconnect or avoid using your garbage disposal.

Remove oil and grease from dishes, pans, fryers and griddles. Cool first before you skim, scrape or wipe off excess grease.

Prewash dishes and pans with cold water before putting them in the dishwasher.

Cover kitchen sink with catch basket and empty into garbage can as needed.

Cover floor drain with fine screen and empty into garbage can as needed.

IMPORTANT: Make sure this “Pre-Wash Sink” is connected to an Automatic Grease Recovery Unit.

IMPORTANT: As an alternate, install a “flush-with-floor” Strainer Basket.
DON'T ...

Don't pour oil and grease down the drain.

Don't put food scraps down the drain.

Don't run water over dishes, pans, fryers and griddles to wash oil and grease down the drain. Don't rinse off oil and grease with hot water.

**IMPORTANT:** Make sure all “Wash Sinks” are connected to an Automatic Grease Recovery Unit.

Install Automatic Grease Recovery Units at required fixtures.

Install Strainer Baskets at required fixtures.

Recovered grease collects in a container outside the GreaseStopper® and can be used in the production of Biodiesel fuel.

» Use environmentally safe cleaning products instead of harsh detergents or cleaners that can damage sewer lines and upset grease interceptors.

» Do not use additives of any kind including bacteria, enzymes, chemicals and emulsifiers in the kitchen.

If you generate large amounts of used cooking oil, reuse or recycle it. Grease can be recycled to produce "Biodiesel".

If you generate small amounts of used cooking oil, reuse it as often as possible and then pour it into a container for recycling. Never pour it down the drain.
