Highland Tank is excited to roll out our updated website: www.highlandtank.com. The new site is easy to navigate and hosts many helpful tools. These tools include standard drawings and specifications, product animations, sizing calculators, gauge charts, design questionnaires, and more.

Users can download standard drawings and specifications for nearly all of our tanks and vessels. We also have CSI specifications available to download for oil/water separators and water storage tanks.

Highland Tank offers many useful tools that assist in selecting and specifying a tank or vessel. The new industries section breaks down our products by industry.

Product sizing calculators, design questionnaires, a map of regulations, and product information videos are all available under "Support."
