## ONE-STOP SHOP FOR PROJECT DESIGN

Highland Tank's website offers an extensive library of tools for engineers and designers. Our drawings, specifications, design questionnaires, user manuals, and other technical documents are designed to help in all aspects of tank projects.

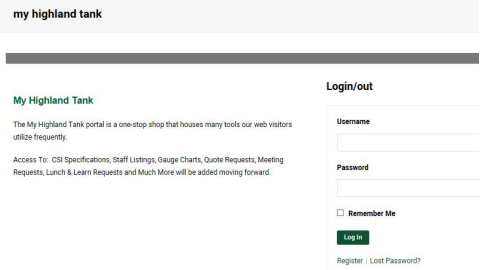

The new My Highland Tank portal is a one-stop shop that houses many tools our website visitors utilize frequently.

After creating an account, users have access to CSI Specifications, Staff Listings, Gauge Charts, Quote Request forms, Meeting Requests, Lunch & Learn Requests, and more.

Additional tools will be added to the portal to create a convenient project tracking environment. By creating an account, users will forgo the need to re-register each time a CSI Spec is downloaded.

Users will also have access to tools only available in the portal and to new tools as they are added.
