

Virtual Seminars & Meetings

December 2020

At Highland Tank, we are working to facilitate conversations and opportunities to answer questions with virtual meetings and webinars. You can maintain social distance while discussing projects with our team.

We offer engineering seminars that can be presented as a webinar for PDH credits. We can also use this technology to cover in-depth details on any of our products.

Engineering Seminars Include:

Petroleum & Chemical Storage Tanks

Wastewater Treatment Systems

Grease Removal Systems

Rainwater Harvesting Systems & Greywater Systems

Thermal Energy Storage Tanks

To schedule a meeting, [click here](#).

**Safe and secure,
no hassle virtual meetings
at your convenience**
