CSI SPECS FOR FIREGUARD TANKS

Highland Tank offers CSI specs written in accordance with MasterSpec Format for many of our products. We have recently added CSI specs for our cylindrical Fireguard® tanks to our online spec database.

Our standard and CSI specs provide detailed information on our products to assist in commercial and institutional projects.

You can access the specs by registering for our My Highland Tank portal. There, you will have access to our CSI specs in addition to other tools like revit files, meeting request button, interactive 3D models, and our HT-TV podcasts.

Our team has many years of experience working on Fireguard tank projects. We are happy to discuss designs and project applications. Give us a call.

Call 814-893-5701 today
