

Highland Tank[®]

Unmatched Quality and Service

Built on Tradition

Our mission is to engineer and manufacture innovative, high-quality products while maintaining excellent customer service and relationships founded on integrity.

MADE IN

U. S. A.

Petroleum & Chemical Storage Tanks

Highland Tank's petroleum and chemical storage tanks are designed to meet the needs of many industries. Highland Tank offers high-quality steel storage tanks in a wide range of sizes and configurations to ensure the safe storage of petroleum products and more.

Steel Storage Tanks:

- FIREGUARD® Tanks
- Vertical & Horizontal UL-142 Storage Tanks
- HighGuard Underground Storage Tanks
- TITAN® Underground Jacketed Tanks
- Aboveground & Underground Propane Vessels
- Lube Tanks
- Chemical Storage Tanks
- Dike Tanks
- Overfill Protection Tanks

Wastewater Treatment Systems

Oil/water separators from Highland Tank's Wastewater Treatment Systems Division feature the patented Corella® coalescer. State-of-the-art coatings, linings, and fabrication techniques put us at the forefront of the wastewater treatment industry.

Wastewater Treatment Systems:

- Aboveground & Underground Oil/Water Separators
- Oil/Sand Interceptors
- Elevator Sump Pump Interceptors
- Manual Oil Interceptors
- Advanced Hydrocarbon Filtration Systems
- Collection Sumps, Lift Stations, Valves, & Many Control Options Available

Grease Removal Systems

Highland Tank manufactures the most comprehensive line of grease interceptors in the industry. We produce high-quality products suitable for installation in food processing facilities and commercial kitchens. We offer a wide range of grease interceptors compliant with various AHJ requirements.

Grease Interceptors:

- GreaseStopper® Automatic Grease Interceptors (GRD's)
- Gravity Grease Interceptors
- Hydro-mechanical Grease Interceptors
- Lift Stations
- Strainer Baskets
- Solids Interceptors

Water Storage & Pressure Vessels

Highland Tank offers aboveground and underground tanks to satisfy the need for safe and sanitary water storage. Atmospheric tank designs are available along with ASME pressure vessels. All tanks are code-compliant and include factory-applied NSF interior coatings, exterior corrosion protection, and more.

ASME Pressure Vessels:

- Fire Protection Vessels
- Hydropneumatic Vessels
- Chlorine Contact Vessels
- Thermal Energy Storage
- Buffer Tanks
- Heated & Chilled Water Tanks
- Boiler Blowdown
- Air Receiver
- Emergency Water

Atmospheric Tanks & Systems:

- Rainwater Harvesting Systems
- Greywater Recycling Systems
- Fire Protection Tanks
- Break Tanks
- Potable Water Tanks
- Wastewater Storage Tanks
- Sump Tanks
- Stormwater Detention/Retention Tanks
- Decontamination Storage Tanks

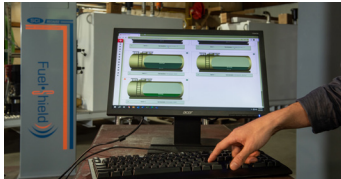

High-LINK® Technologies

Highland Tank's High-LINK® technology enhances the value of our superior steel storage tanks and systems. Cloud-based monitoring software provides in-depth views of day-to-day operations. Fleet managers, fuel suppliers, facility managers, and many others can benefit from applying High-LINK® technology. This technology enables users to measure, monitor, and manage assets anywhere, any time, and on any device.

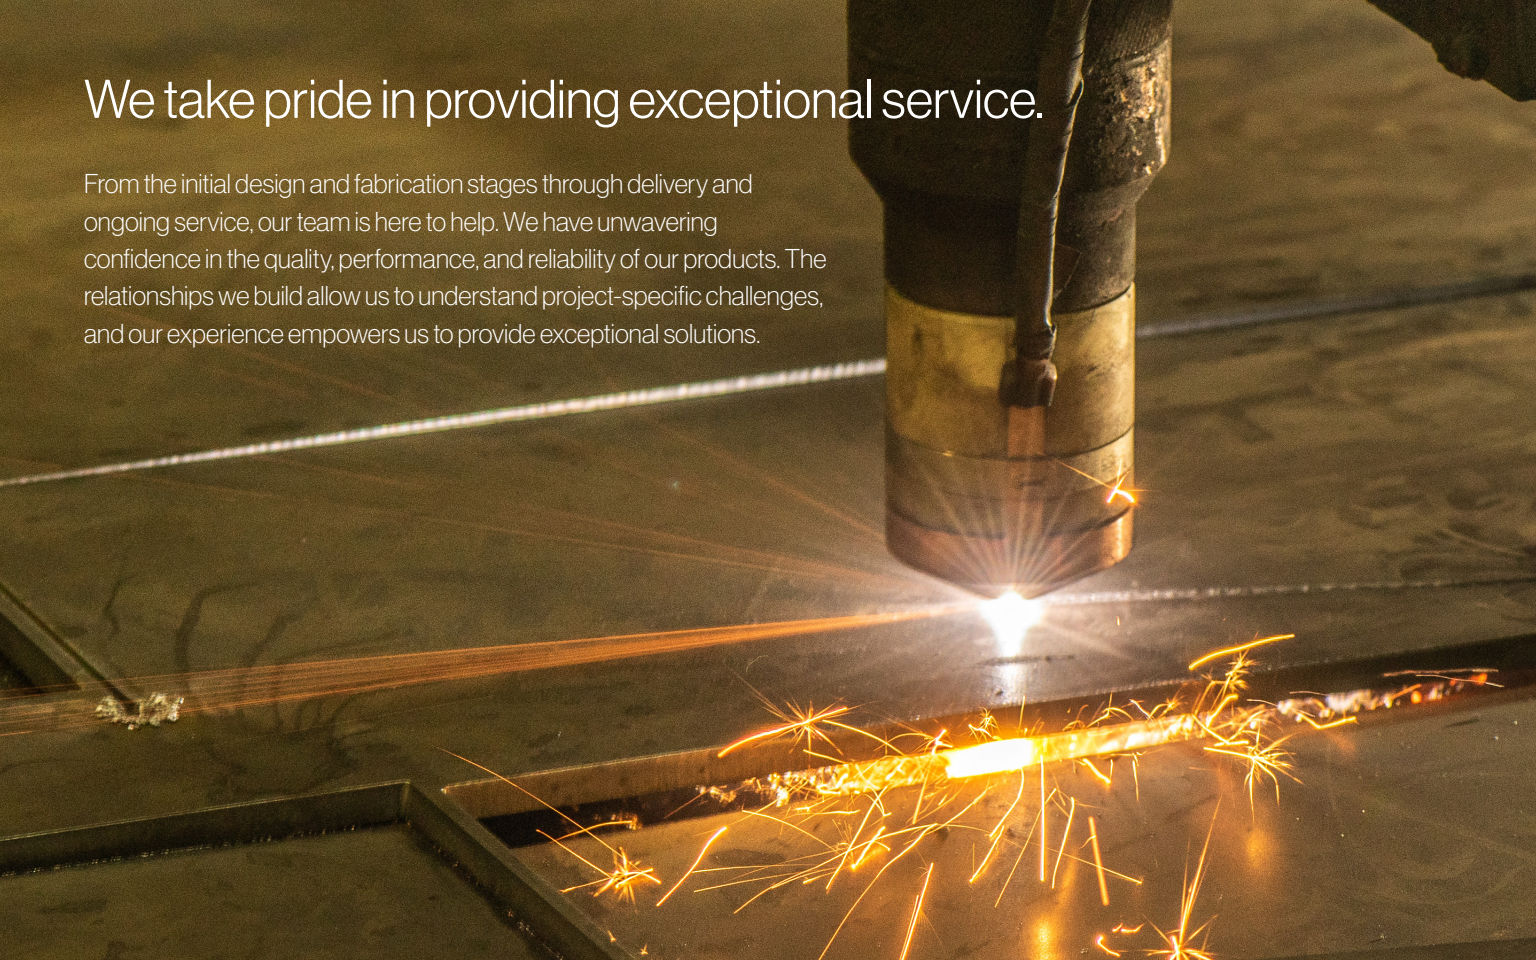

Tank Technology Solutions:

- Fuel Inventory & Dispensing
- Fleet Operations Management
- Grease Removal Systems Monitoring
- Oil/Water Separator Systems Monitoring
- Water Harvesting Systems Monitoring

We take pride in providing exceptional service.

From the initial design and fabrication stages through delivery and ongoing service, our team is here to help. We have unwavering confidence in the quality, performance, and reliability of our products. The relationships we build allow us to understand project-specific challenges, and our experience empowers us to provide exceptional solutions.
